Ben Nadel reviews Release It! Design and
Deploy Production-Ready Software by Michael
T. Nygard. This book took two-and-half-years
to read (due to its panic-attack inducing
nature); but, it is a great book and
definitely a worthwhile read for any web
application engineer.

in one book. Personally I have some weakness in the Deployment part or better said in the release stuff. However I think creating a good Design is much tougher to achieve than a process of release management. Simply because to my opinion Design is an art while the release management is a (also tough) one-time discipline.
