**Fluid Mechanics by
Robert A. Granger -
Goodreads**

Fluid mechanics is
based upon five great
principles of physics:

1. Conservation of
mass. 2.

Conservation of linear
momentum. 3.

Get Free Solutions Fluid

Conservation of
angular momentum.

4. Conservation of
energy. 5. Second law
of thermodynamics.

The first four
principles are the
same ones used in
the other four
branches of
mechanics, and they
are familiar to all.
