What Makes You Click examines how these prolific entities collectively and individually use, shape, and manipulate our experiences via an online world, not just when it comes to buying things, but also with regards to our free time and political perspectives. The manipulation has become so good that these powerful controllers, former Google employees among them, are themselves arguing for the introduction of an ethical code.

~~What Makes You Click - Thought Maybe~~

What Makes You Click is both a fascinating psychological study and a gripping cautionary tale. The filmmakers navigate these uncharted new realities from an informed and probing point of view, and introduce a series of dilemmas our society is likely to grapple with for many years to come.

What makes me click on a link is when I know the person who has written an article or is giving the information, or when the first line sparks my interest. What compels me to choose a story to read is first the cover, and then the blurb. The cover has to be something that makes me want to read the scene which is depicted.

You click more with friends than with non-friends, which fits with our intuition that we resonate with some people more than others. There seem to be neurobiological reasons for that. ” The brain regions with the most similar activity among friends included subcortical areas such as the nucleus accumbens and the amygdala, which are involved in motivation and processing emotions.

Cracking joints is manipulating one's joints to produce a distinct cracking or popping sound. It is sometimes performed by physical therapists, chiropractors, osteopaths, and masseurs in Turkish baths. The cracking of joints, especially knuckles, was long believed to lead to arthritis and other joint problems. However, this is not supported by medical research. The cracking mechanism and the resulting sound is caused by carbon dioxide cavitation bubbles suddenly partially collapsing inside the j
